

Codebook for Cancer Deaths  
Curated by Amelia Benham 11/10/2023

This data was found on Matsonah. “Cancer Deaths.” *GitHub*, Nov. 2022,  
[github.com/matsonah/ClarkeStatsSpring2022/blob/main/data/Cancer%20Deaths.csv](https://github.com/matsonah/ClarkeStatsSpring2022/blob/main/data/Cancer%20Deaths.csv).

This data is interesting because knowing the type of cancer is most deathly compared to others is great information for my major (nursing).

Columns included:

Cancer Sites	What type of cancer is had/location of the cancer.
Deaths	How many people have died from this cancer had.
Population	Population of the people who have this specific cancer
Age-Adjusted Rate Per 100,000	Age-specific death rate per 100,000 for each age group
